Lewis Carrier
International Dressage Rider
& Red Gorilla® Brand Ambassador

Introducing **RED GORILLA®**

We are **Red Gorilla®** and, since 1981, we have been producing and selling a variety of products for yard and stable management. We pride ourselves on being the very best at what we do, and everything we do is to try and make our products' functionality that bit better, and your various tasks that bit easier. We understand that a modern yard or farm needs all sorts of tools to make sure things run smoothly, and we're always working hard to develop new, useful and innovative products which make a real difference.

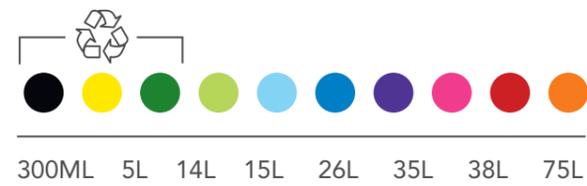

TUBS, BUCKETS,
SKIPS & MORE...

GORILLA TUB®

Use them for anything

The **original** flexible, two handled tub, with all the functionality and build quality you'd expect from Red Gorilla®. The **Gorilla Tub®** is the original Tubtrug® rebranded for an expanding market. They come in 8 different sizes, and 10 different colours, including three colours which are made from fully recycled materials.

Why choose a Gorilla Tub®?

'Golf ball' handles make it easy to grip, even one handed

Reinforced handle joints prevent tearing and breaking even under heavy use

Every tub is embossed with our logo, so as to distinguish it from other brands

Chamfered edges on both sides of the tub allow for easy pouring

Ribbing around the body of the tub give it unparalleled strength

British Olympian Sharon Hunt said "The small shallow tub is a brilliant product which works equally well as a feed bowl as it does for icing tired feet!"

GORILLA PLAS®

The best yard management equipment ever made

Introduced in 2022, Gorilla Plas® is the successor to Tyre Rubber™. It's tougher than rubber, easier to keep clean and lighter, too. What's more, it's 100% recycleable and manufactured entirely in the UK. Thanks to the reduced shipping and more efficient processes, it's more eco friendly than our Tyre Rubber™ products as well.

TYRE RUBBER™

Easy and convenient stable and yard equipment

Since 1981, we've been selling our Tyre Rubber™ feed skips, buckets, mangers and tubs to the equine, garden and construction industry. It's still one of the few products to make use of used tyres, which are particularly difficult to recycle because the rubber is vulcanised. We press it to make incredibly durable, hardwearing and flexible equipment that is perfect for all of the heavy duty jobs you can throw at it!

Flexible rubber allows sides to collapse for easy carrying and pouring

Thick, integrated handles for keeping a sturdy grip

Structural ribbing maintains the strength and integrity of the product under intense pressure

Weight distribution means skip sits flat, and stays put, by design

This is the original brand of Tyre Rubber™ from when we introduced it in 1981. Before then, these products had never been sold anywhere outside of southern Spain, and certainly never for use with horses.

Now, rubber feed skips, mangers and buckets, can be found in every tack shop in the country and beyond.

Over the past 40+ years, we've seen them grow from relative obscurity to a staple yard and stable product, and now it's hard to imagine how we ever did without.

GORILLA BUCKET

As flexible as a tub, as easy to use as a bucket

Our **Gorilla Bucket** is the perfect middle ground between our flexible tubs and the more traditional bucket, commonplace in every corner of the globe. The main benefits of combining these two concepts is to have all the versatility of a flexible tub when it comes to pouring, carrying and daily usage, but combined with the easy to lift, pivotability that a bucket handle offers.

BROOMS,
FORKS &
EQUIPMENT

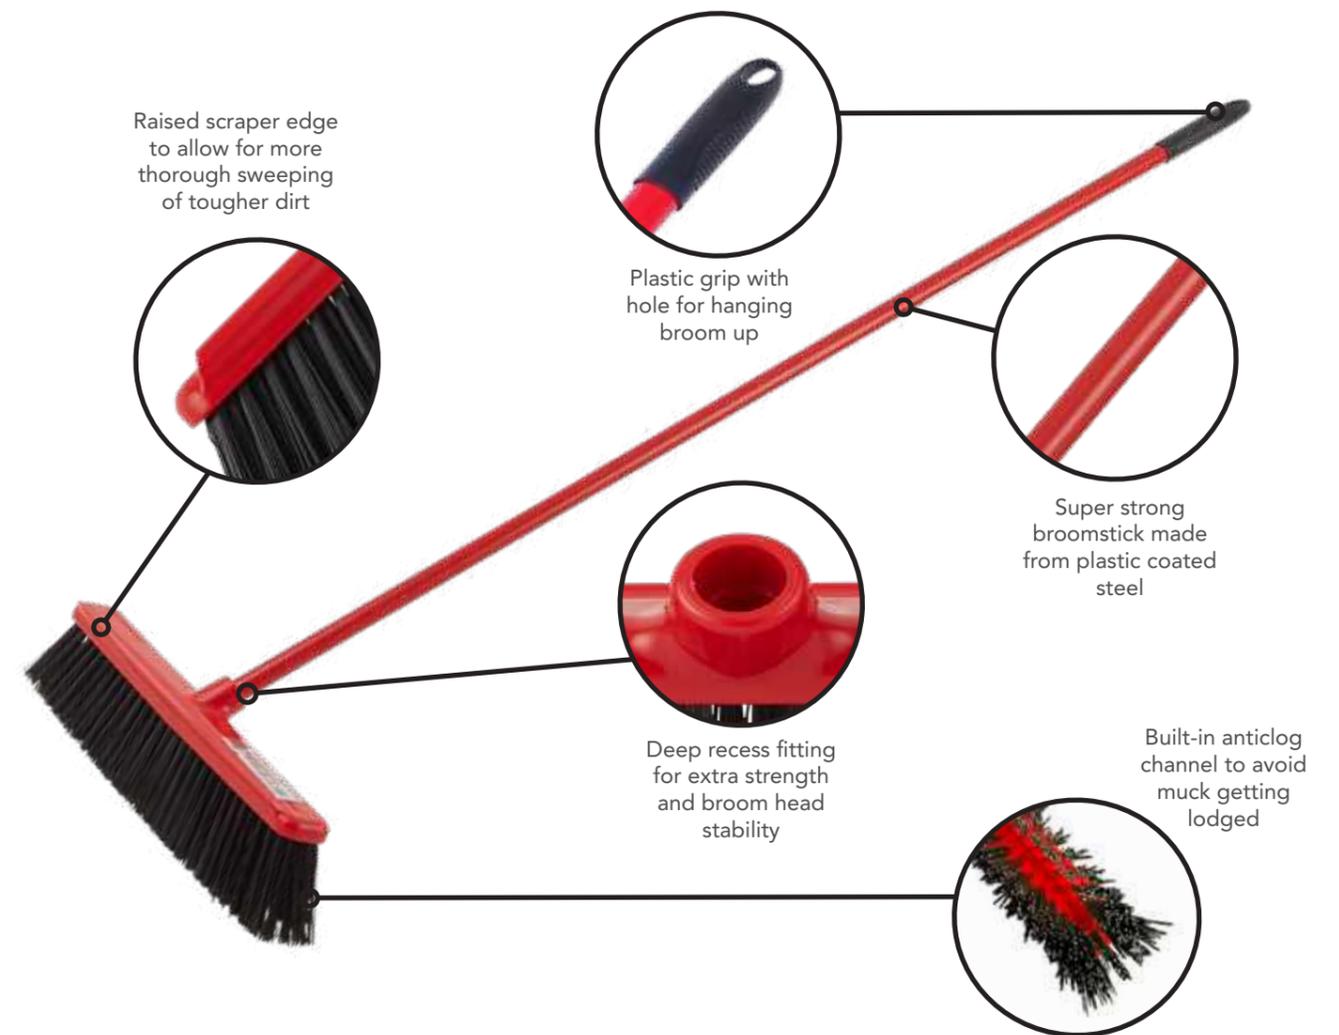

GORILLA BROOM®

A professional grade broom with integrated scraper edge

Available in six colours, two sizes of handle and head, the **Gorilla Broom®** combines a well balanced, lightweight broom with the functionality you'd expect from Red Gorilla®.

On it's launch, the **Gorilla Broom®** was the first plastic broom to feature an integrated scraper edge, which allows for easy removal of even the toughest of ground in dirt. It also has a unique bristle arrangement, with an anti clog channel, and outlet break in the rear bristles, to stop particularly clumped up dirt and muck from lodging in the brush.

POLY YARD BROOM

A small and lightweight broom for everyday use

Our Poly Yard Broom is a lightweight little broom letting you get into tight spaces. Designed with a narrow profile and flared, hard bristles which are completely impermeable and cover surfaces more thoroughly than other similar small brooms. Suitable for finer debris, the Poly Yard copes well with powder, dust and grit with ease. It has a standard, universal screw fixing.

DELUXE BROOM

A modern compliment to the classic corn broom

Our Deluxe Broom is made using polypropylene bristles, bound exactly like a corn broom, and with all the great benefits of a corn broom, but more suitable for wet and messier jobs, as its bristles are completely impermeable.

CORN BROOM

An age old design with little room for improvement

Corn Brooms haven't changed much in over 300 years, and once you've used one, it becomes abundantly clear why. They allow for quick and easy coverage, and they're especially good for dry, hard floors, in stables and the like. We combined this with our lightweight broom handles to offer a colour matched option for colour coordination.

Deluxe Broom	CODE	BARCODE	WEIGHT	DIMENSIONS

UNIVERSAL* BROOM HANDLES

Broomsticks that offer strength, style and usability

Our broom handles are colour matched to some of our most popular colours and make for a strong, reliable and multi use handle for many of our fitted heads. The strong, steel shaft is both lightweight and strong, giving a sturdy application for whatever it's attached to.

Each one has a convenient rubber grip on the end, with a hole to hang your broom up by, which allows for easy drying of our more weather resistant broom heads. Our broom handles come in two different lengths, the small 120cm handle is great for smaller spaces, whereas the standard 147cm gives that extra reach.

GORILLA SHOVEL™

Light weight shovel with heavy duty credentials

Since 2014, our **Gorilla Shovel™** has been earning it's stripes on farmyards, building sites, gardens, and paddocks. Serious groundworks call for serious tools! With it's rock steady unibody design, produced from a single injection moulding, for superb strength and durability, the Gorilla Shovel™ is both tougher and lighter than almost all other alternatives on the market.

PC BEDDING FORK

Our super lightweight and strong polycarbonate bedding fork makes mucking out a breeze.

International Dressage Rider and Red Gorilla® Ambassador Harry Payne said "It's light and easy to handle. This bedding fork is a firm favourite at the yard."

THE RIDDLER

A patented design of bedding fork with unique, wavy tines, to minimise wastage

PRO FORK

Impressively strong, impossibly light...

The **Pro Fork** is, simply, the best fork on the market today. With a solid steel forkhead, a stiff and hardwearing aluminium shaft and a choice of either straight or D handles, it's a well thought out fork for any number of uses. The most game changing part of all, though, is that the entire fork weighs only 1.2 kilograms. That's significantly less than the average fork of a similar standard of build, and puts the **Pro Fork** a cut above the rest.

Deep, double riveted fitting for a reliable and super strong joint

Supremely strong, single piece steel forkhead

Light weight and hard wearing plastic handles

Strong, stable and light weight aluminium shaft

Pro Fork	CODE	BARCODE	Weight	Dimensions
D Handle	MAN/D/BK	729848004659	1.2KG / 2.65LB	W: 220MM X H: 1130MM
Straight Handle	MAN/STR8/BK	729848004642	1.2KG / 2.65LB	W: 220MM X H: 1540MM

+ you

The perfect partnership

BRAND & PROMOTION

We work hard to ensure our brand is placed, promoted & marketed to your customers so our products are as easy as possible to sell...

- We have a huge bank of brand assets and images you can use in your marketing
- Our marketing department is always on hand to provide copy, campaigns & materials
- In addition, we offer a visual merchandising service to set you up for success
- We are always working to grow brand recognition for our commitment to quality

STOCK TURN GUARANTEE

We are so confident in our products and the sales they will make, we are prepared to back it up with our Stock Turn Guarantee...

- If you are not completely satisfied by our products you can return them
- We will ensure that any stock you want to return is collected at our expense
- This allows you to try new product lines from our range without taking on any risk
- We offer this because of how confident we are in the saleability of our products

+ you

The perfect partnership

"MATCHY MATCHY"

Colourful, eye catching products are at the heart of what we do. We're very proud of the vibrant colours we offer, and customers really seem to love them, too...

- All of our coloured products are made to the same, standard Pantone colours
- Colour matched products have been shown to sell better, especially to equestrians
- The selection of 10 distinct colours offers something to suit every taste and scheme
- Once a customer buys into a colour, they will most likely buy more products to match

Many of our product ranges are also available in bundled Profit Packs™ which come with purpose made POS stands and materials, too, to help you display and sell even more Red Gorilla® products...

Business Terms

We can't wait to work with you. Here's how we like to do things...

Pricing & Invoicing:

Invoices are payable within 30 days from the date of the invoice. All goods will remain the property of Faulks & Cox Ltd trading as 'Red Gorilla International' until paid for in full. Notwithstanding, the risk in the goods shall pass to the buyer upon delivery. Placing an order confirms that the customer has read and agreed these terms. These terms apply to any order placed by a buyer to the exclusion of the buyers own terms and conditions and shall be deemed to have been delivered first and last in time.

Ordering Process:

ONLINE: You must first register a trade account. You can do this by visiting my.redgorilla.red Once your account is approved you will see all the prices in this book against the products online along with online exclusive deals.

PHONE: You can place your order over the phone by calling 01455 848184 and speaking to a member of our friendly team.

EMAIL: You can email your orders to sales@redgorilla.red. Please use your company email address when placing orders by email.

POST: You can place your order by posting it to: 21 Moat Way, Barwell, Leicestershire, LE9 8EY, United Kingdom. Please use your company letterhead paper on all mail orders.

Carriage:

Trade orders of £250 (ex. VAT) and over are sent on a 3-5 day carriage paid basis. This is strictly limited to UK Mainland excluding Highlands, Islands, NI & Éire. Wholesalers vary, please contact the office for terms. If you are in the highlands of Scotland we offer 3-day carriage paid on orders of £750 (ex. VAT) and over. If your order does not meet our carriage paid orders or you live on the islands, NI or Éire, please contact us for a carriage quotation.

Carriage Claims:

No claims can be allowed unless made to Faulks & Cox Ltd trading as 'Red Gorilla International' within 10 days of invoice. This includes discrepancies or shortages. Please ensure your Goods Inward Department do not sign any delivery documents "clear" unless they have fully checked the contents of the consignment. Carrier drivers are not authorised to alter these conditions.

Cheques are no longer accepted by the company, please pay by Bank Transfer or by phoning the office (01455 848184).

Bank: NatWest, 1, Market Place, Nuneaton, CV11 4YY, UK
