

MOYA

SUSTAINABILITY AT OUR FOREFRONT

At Moya, we're committed to making a difference. Our mission is simple yet impactful: to create high-quality, reusable products that respect people, the planet, and the resources we all share.

•**Innovative Design, Endless Reuse:** Our leakproof, BPA-free water bottles and travel mugs are crafted for longevity, replacing disposable plastics with durable, eco-friendly alternatives.

•**Sustainable Practices:** From our materials to our manufacturing, we prioritize using recycled resources and eliminating plastic in packaging. Every product is a step toward reducing waste and conserving energy.

•**Planet-First Commitment:** Moya's Lifetime Promise ensures every product stands the test of time, and a portion of our profits goes directly to nonprofit organizations dedicated to cleaning up the world's oceans. Together, we're creating a future where sustainability is second nature, and every choice helps protect the planet for generations to come. Choose Moya. Choose change.

Plastic Crisis

- Over 8 million tons of plastic end up in our oceans every year, equivalent to a garbage truck's worth of plastic every minute.

- 90% of seabirds and 52% of turtles have ingested plastic, mistaking it for food.

- By 2050, there could be more plastic in the ocean than fish (by weight).

The problem is urgent, and we all have a role to play in reducing plastic waste.

Reducing Plastic

Our Mission:

To create sustainable, durable, and reusable products that eliminate the need for single-use plastics.

Our Focus Areas:

Eco-friendly designs made from recycled steel.

Stainless steel straws included in every Moya bottle.

Promoting reuse over disposal with a lifetime warranty.

Every Moya product sold prevents hundreds of plastic bottles and straws from entering the environment.

Small Change, Big Impact

Plastic straws are one of the top 10 items polluting our oceans.

They are non-biodegradable and often ingested by marine life.

Our Solution:

Durable, reusable stainless steel straws in every Moya product.

Designed to last a lifetime, reducing plastic waste dramatically.

By choosing Moya, you're saying no to single-use plastic straws.

Quality That Reduces Waste

Why It Matters:

- Disposable products contribute to 40% of global waste.
- Moya bottles are built to last a lifetime, reducing landfill waste.

What We Offer:

- Free replacement lids for first-time damages to encourage long-term use.
- Strong, durable design using recycled materials.

Impact: A single Moya bottle replaces thousands of disposable plastic bottles.

**Be Part Of The
Solution**

Together, we
can make a
difference.

By choosing Moya, you're:
Protecting our oceans and marine life.
Supporting sustainable manufacturing
practices.
Helping to reduce the global demand for
single-use plastics.

Let's work
together to create
a cleaner,
healthier planet.

love

MOYA
