PROQ PRODUCTS

OVERVIEW 2024

OUR STORY

At ProQ[®], we are experts in BBQ, food smoking, and the art of using smoke in cookery and food preservation.

We have earned an enviable reputation for quality, versatility and innovation – helping our customers to share the same enjoyment of cooking, smoking & curing food as we do.

It all started in Cornwall back in 2008, when Ian McKend designed and developed the very first ProQ[®] smoker.

With plenty of requests for a cold smoking feature, our patented & hugely popular ProQ[®] Cold Smoke Generator quickly followed.

Today, we have a range of more than 70 products, sold in more than 15 countries across the world.

PROQ RANGER BBQ SMOKER

Albeit a small and compact BBQ smoker, it's highly versatile that is sure to get you confidently grilling, roasting and creating great tasting smoked barbecue food all year round.

In-built lid thermometer and multiple vents allowing you to control your temperature with ease

Perfect size and capacity for singles, couples, small families, and great for camping and caravanning

Large range of accessories available to make your smoker even more versatile. It can be set up as a stacked BBQ smoker or a bullet BBQ. A small BBQ smoker with endless possibilities!

Thick, robust, porcelain-coated enamel walls for great insulation and durability in all weathers

Easy to clean and rust resistant stainless steel grills. The compact BBQ smoker Ranger is extremely durable.

Probe eyelets incorporated to avoid damaging digital probe wires and tool hanger incorporated into base handle

Smaller, “whisper” vent to make cooking at lower temps (Low n Slow easily achieved)

Optional Accessories: Rotisserie kit, cast iron wok/ pan, cast iron sear grate and folding side table

10-year limited warranty

PROQ FLATDOG

Made to take with you. ProQ have been in the barbecue game for a while, creating products that help people to achieve a level of flavour that they struggle to reach with an ordinary barbecue.

The ProQ Flatdog BBQ has been designed so that anybody can carry a barbecue to the beach or on a camping trip without it taking up too much space in the back of the car or campervan.

It goes from flat to functional in one easy step. Meaning that it's ready to light in a couple of seconds and yet has a big enough grill size to feed a hungry family.

Once the coals have gone out it cools rapidly and is ready to fold flat once more.

Fully re-usable, the ProQ Flatdog has been created as a positive move against the issue of destructive 'disposable' barbecues. An environmentally conscious and safe alternative to single-use BBQs, the Flatdog is built to last and become an essential companion for outdoor adventures.

PROQ CHIMNEY STARTER STAINLESS STEEL

The best way to light charcoal for your BBQ or smoker is with a chimney starter! An essential piece of kit for any outdoor cook, the ProQ Stainless Steel Chimney Starter will save you struggling, blowing or fanning when it comes time to get a fire going. It'll have your fire going in minutes, and you'll never look back.

- A global best-seller
- Strong, durable and comes with an industry leading 5 year warranty
- Unique and ergonomic 2 handle system, making pouring hot coals easy
- The chimney starter can be used with fire lighters of all kinds and even just a bit of newspaper, either way, it'll have hot, ready to cook coals in minutes.
- Inner cone system ensures plenty of airflow to the fire and speeds up lighting time
- In built heat shield to protect your hands and large capacity, light as much charcoal or briquettes as you need in one load
- Compatible with the ProQ Afterburner Searing Grill (this is also compatible with the Weber Chimney).

MULTI-TOOL

PROQ TRAVEL BBQ MULTI-TOOL

Four functions, one tool. If you are planning to grill food away from home, not only will you need a grill designed to travel, but you will also need some tools to go with it. Introducing the small, but perfectly formed ProQ Travel BBQ Multi-tool.

This smart little tool includes a spatula for flipping flat food, a fork to help out with some of the more unwieldy items and of course some tongs to help you grip a sausage or a side of salmon.

And in case you're thirsty, it even features a bottle opener so you can enjoy a cold one whilst tending your food.

PROQ FLIP'N GRATE SWIVEL GRILL

The Flip'n Grate is a unique stainless steel portable BBQ swivel grilling tool, designed to transform the way you cook on your barbecue or campfire.

This awesome grill revolutionises BBQ grilling by allowing you to flip your food quickly and easily in one movement. It also allows you to control temperature by raising and lowering the whole grilling basket.

This handy grill also works free-standing and packs flat into the bag, great for camping, beach days and even fire pits.

Offset your food from the fire for asado style cooking, perfect for rump cap and butterflied lamb leg.

Fully stainless, flat pack-able and portable, a must have for camping. View product animation [here](#).

The Flip'n Grate comes in two sizes:

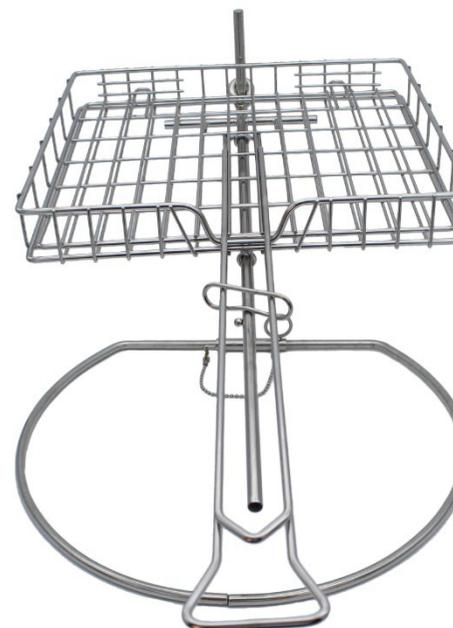

- Small Flip'n Grate (47cm base hoop diameter. 32x32cm grill):
 - Includes an extra pole that can be inserted into the V4 charcoal basket of our V4 ProQ BBQ Smokers.
 - Compatible with all 47cm diameter kettle BBQs.
- Large Flip'n Grate (57cm base hoop diameter. 39x39cm grill)
 - **Not Compatible with ProQ Smokers**
 - Designed specifically for larger 57cm kettle BBQs

The Flip'n Grate being used with the included extra pole, which is inserted into the charcoal basket of our V4 ProQ BBQ Smokers

The Flip'n Grate being used as a standalone campfire grill

PROQ INSTANT READ THERMOMETER

An accurate, waterproof and rechargeable digital thermometer is an essential tool in every kitchen. Guarantee food safety at your BBQ and perfect cooking results, every time.

This superfast thermometer will measure the internal temperature of your food within 3-5 seconds. Great for both indoor and outdoor use, this IPX5 waterproof probe is hardwearing and comes with a 2-year warranty.

PROQ RIB & ROASTING RACK

The ProQ Rib Rack is a stainless steel rack which triples cooking capacity allowing hot smoke and heat to cook your ribs evenly.

It doubles up as a roasting rack for cooking larger joints of meat on the barbecue.

For good measure, it also includes 7 prongs so you can cook some juicy corn on the cob at the same time!

PROQ STAINLESS SMOKER BOX

Our rugged stainless steel wood chip smoker box helps wood chips to smoke longer to ensure your food gets that rich smoky hit of flavour.

The advantage of a smoker box is that the chips smoulder and produce smoke rather than burn and produce heat. For use with charcoal, gas or electric smokers, barbecues and grills.

PROQ MARINADE INJECTOR

If you have a barbecue then you'll need some accessories.

One that has become increasingly popular both with the barbecue community and foodies in general is a marinade injector.

This syringe allows you to distribute flavour right into a joint of meat meaning that the whole joint is flavoured – not just the outside. A perfect gift item.

PROQ ULTI-MITTS

Our ProQ Ulti-Mitt BBQ gloves have five fingers for dexterity and are made from Nomex® which provides unbeatable heat protection and they're cotton lined for comfort.

ProQ Ulti-Mitts have great flexibility, combined with high heat resistance and non-slip silicone lines make them some of the best barbecue mitts available.

PROQ PREMIUM BBQ TONGS

ProQ BBQ Tongs are the perfect grilling tool! Our tongs are lightweight but capable, they can lift large cuts of meat including whole chickens!

The design is comfortable, practical and originates from a popular South African style of tong, with a few improvements.

SMOKING WOODS AND CHARCOAL

Wood chunks are a great way to add some smoke to a low and slow dish. They provide a sustained slow burn that flavours the barbecue food during the critical part of the cook.

Cold smoking dust provides a long slow continuous smoke when used in conjunction with a Cold Smoke Generator for cold smoking cheese, bacon, salt or any number of foods.

ProQ charcoal is made from a waste product of the coconut industry. It is low smoke and burns for longer than most other charcoal that is available.

PROQ COLD SMOKE GENERATOR

Our ProQ Cold Smoke Generator is the perfect gadget for turning almost any cabinet, smoker or BBQ into a cold smoker. Produces cool, clean smoke for hours on end.

Perfect for cold smoking all kinds of fish, bacon, cheese, nuts and even butter! Once you've made it yourself, you'll never go back.

Made from high quality stainless steel for longevity and rust resistance, the cold smoke generator can be used in ProQ Smokers and just about all other brands of BBQs & smokers provided they have a lid. Available in two sizes:

Original - suitable for most uses

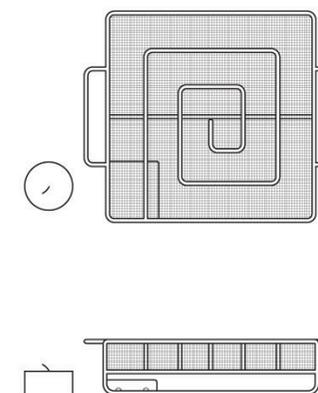

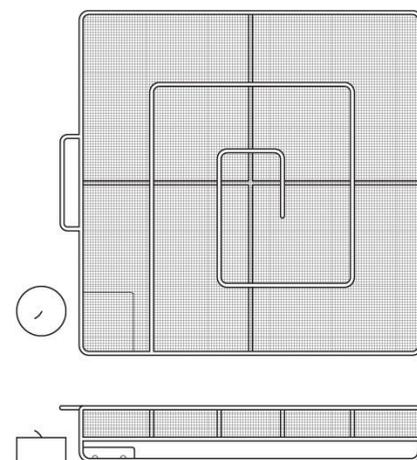

- Best used in containers under 150ltr
- Average burn time: 10 hours

Artisan – suitable for smoking larger quantities of food

- Best used in larger containers between 150-500ltr
- Average burn time: 16 hours

Important Notes:

- Does not include tea light or smoking wood dust
- ProQ are currently sourcing a smoking dust supplier in Australia – so this can be offered for sale alongside the cold smokers
- Smoking dust must be used – wood chips will not work
- Please remove candle once dust is lit. Not for indoor use.

The Artisan: 250mm x 280mm x 40mm

The Original: 150mm x 180mm x 40mm

PROQ COLD SMOKING CABINET

The ProQ Cold Smoking Cabinet is a perfect companion for our ProQ Cold Smoke Generator, and is a great smoking chamber for beginners and regular users alike.

This Cabinet has enough space to hang fish, smoke 2-3Kg of cheese or butter, and is perfect for smoking your own bacon. Made from weather resistant Galvanised Steel, our smoking cabinet is lightweight, durable and will survive all kinds of weather.

Specifically designed for use with our Original ProQ Cold Smoke Generator (small). Plenty of space to cold smoke your own fish, bacon, cheese or butter at home. Includes 3 removable stainless steel grills for easy cleaning. Lightweight, easy to store galvanised cabinet with magnetic locking door.

Version 2 is now available to pre-order, the new design is self-assemble/flat pack, saving a huge amount of shipping space and reducing transport damages.

A wooden cutting board with a salmon fillet at the top and bottom. The middle section is filled with neatly sliced salmon. A large, sharp knife with a black handle and a silver blade lies diagonally across the board. The background is a rustic wooden surface.
