

★★★★★ **Frankly amazing**

PRODUCTS RARELY WORK THIS WELL. Start a fire pit under any condition. No need for kindling. It lights damp wood, ineptly-placed wood, petrified wood, you name it.

★★★★★ **Works perfectly!**

I love this product! It's all I use now. It starts so easy and fast.

★★★★★ **Blown away by how well these work!**

I bought these as a gift for a family member that does a lot of camping as well as outdoor cooking. They work great! Highly recommended!!
